

**Custom-Pak®**

# We operate close to 200 blow molding production lines in North America

## Headquarters:

- **Clinton, Iowa** – 3 Manufacturing facilities
- Product Development Center
- Automation Technology Center
- Machinery Development Center
- Plastic Recycling Plant

- **DeWitt, Iowa** – 1 Manufacturing facility
- 250,000 sq feet warehouse

- **Walnut Ridge, Arkansas** – 1 Manufacturing facility

- **Mexicali, Baja California** – 1 Manufacturing facility

# Custom-Pak®

# 50-year history: experience, technical capabilities and value

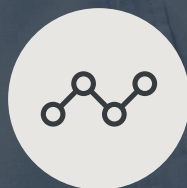

Private company, operating since 1974

\$135M in annual revenue

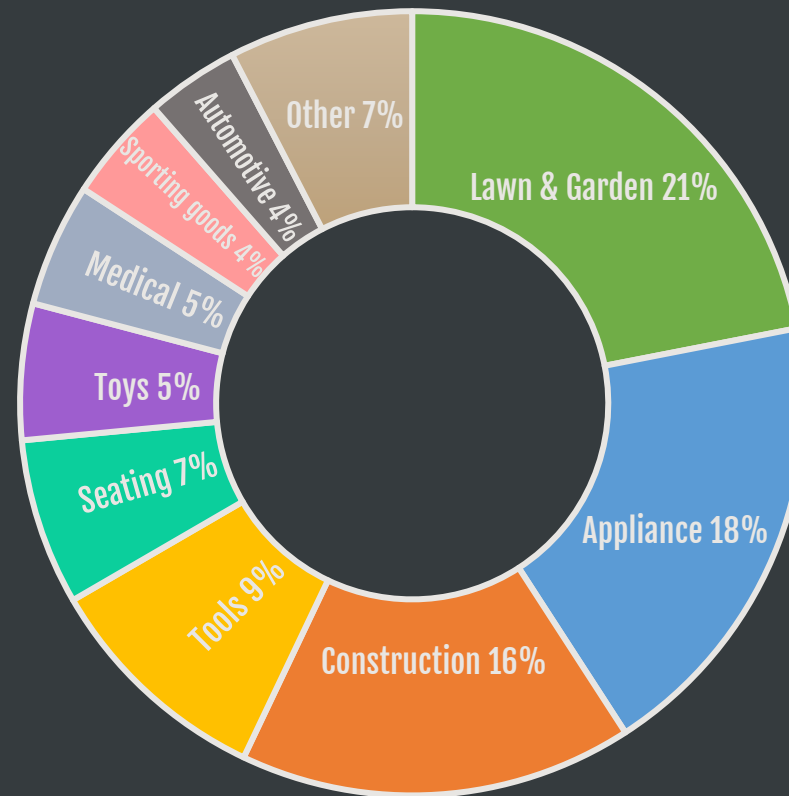

Over 850 employees

50 million pounds of plastic processed annually

**Custom-Pak®**

**Custom-Pak  
manufactures blow  
molded products  
for leading  
companies in many  
markets**

- Lawn & Garden
- Appliance
- Construction
- Tools
- Seating
- Toys
- Medical
- Sporting goods
- Automotive
- Other

Avg. sales ratio per market

**Custom-Pak®**

# Also operating in México, since 1998

Our 90,000 sq feet facility is 5 miles from California, and we operate under the IMMEX program. This allows to defer taxes on raw materials that are imported into México and then transformed into finish goods that are then exported anywhere in the world.

We can assure smooth delivery performance, and most importantly, hassle-free for you.

**Custom-Pak®**

**The value and quality  
of Custom-Pak  
consumer products  
are widely recognized**

**We know what it takes to be the best  
product among the competition, and we  
know how to hit a price point that can bring  
in big orders.**

**Our blow molded housewares, hardware,  
sporting goods, furniture, lawn & garden  
products and toys are literally everywhere.**

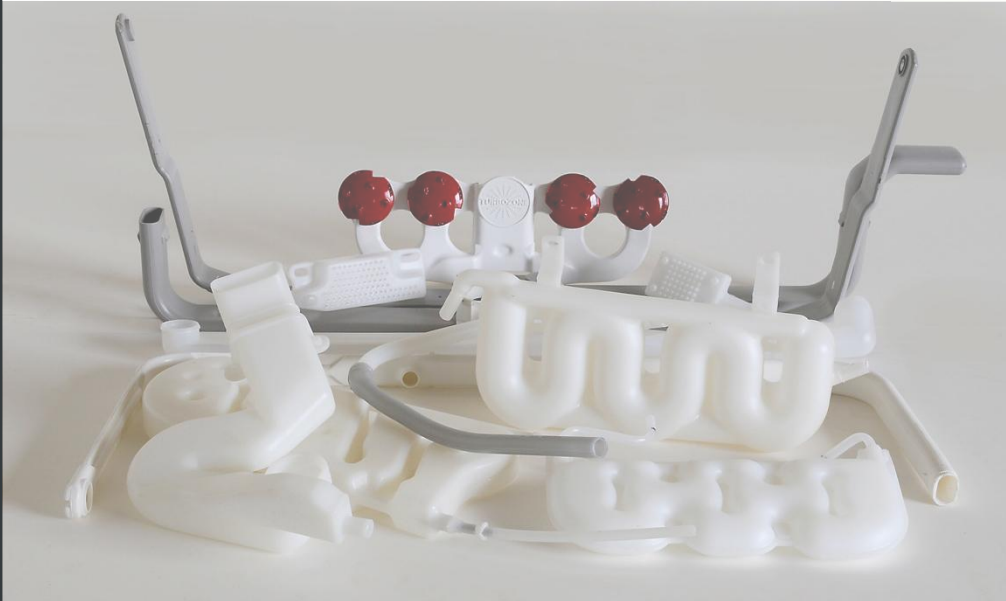

**Custom-Pak®**

# Blow molded parts are perfect for a wide array of industrial applications

Let our design engineers show you the newest technologies and materials being developed for blow molding.

You will be amazed at the design freedoms in blow molded industrial components and how they can enhance your product, saving you time & money.

## Custom-Pak®

# Quality products start with quality molds

Numerous in-mold technology patents provide great value in the products we produce. We offer complete and modern blow mold building centers with 24-hour/5-day mold production for incredibly fast mold delivery.

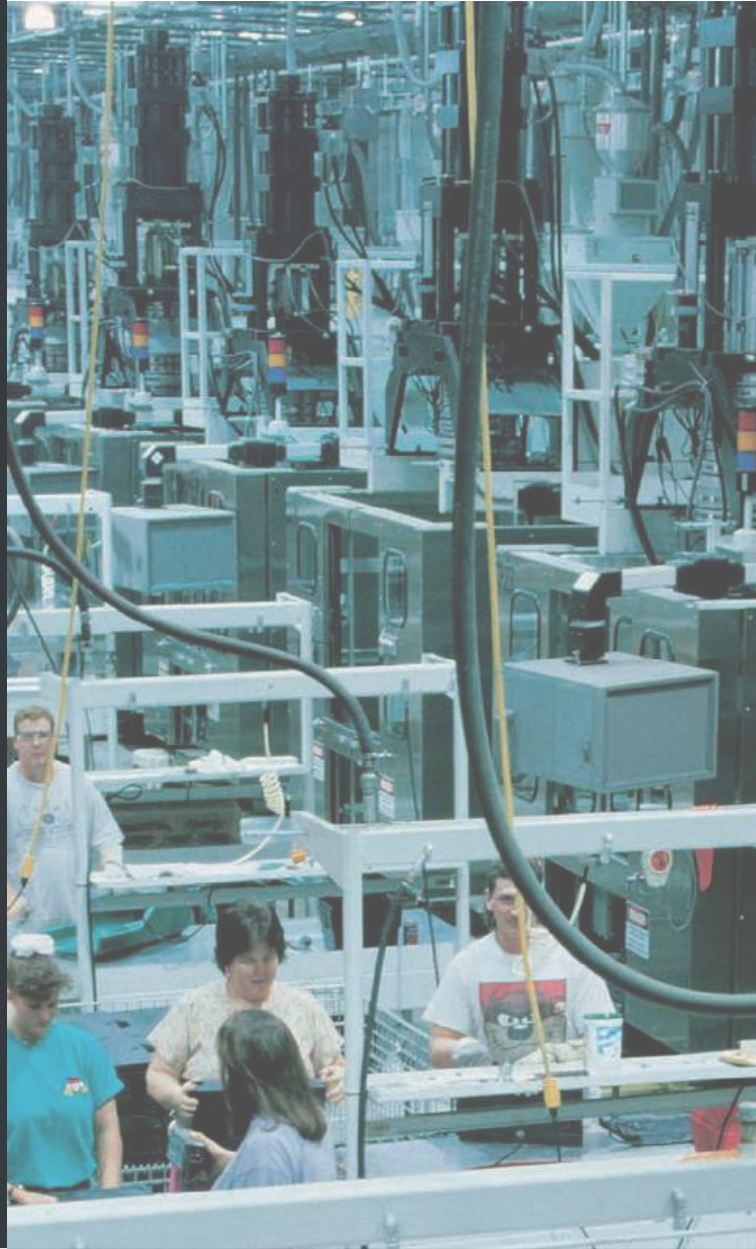

We guarantee maintenance for as long as the tools remain in our possession, eliminating divided responsibility and providing worry-free project management.

## Custom-Pak®

# Custom-Pak designs and manufactures their own blow molding machinery

Our state-of-the-art Process Engineering and Machinery Development Center create some of the world's most technologically advanced blow molding equipment.

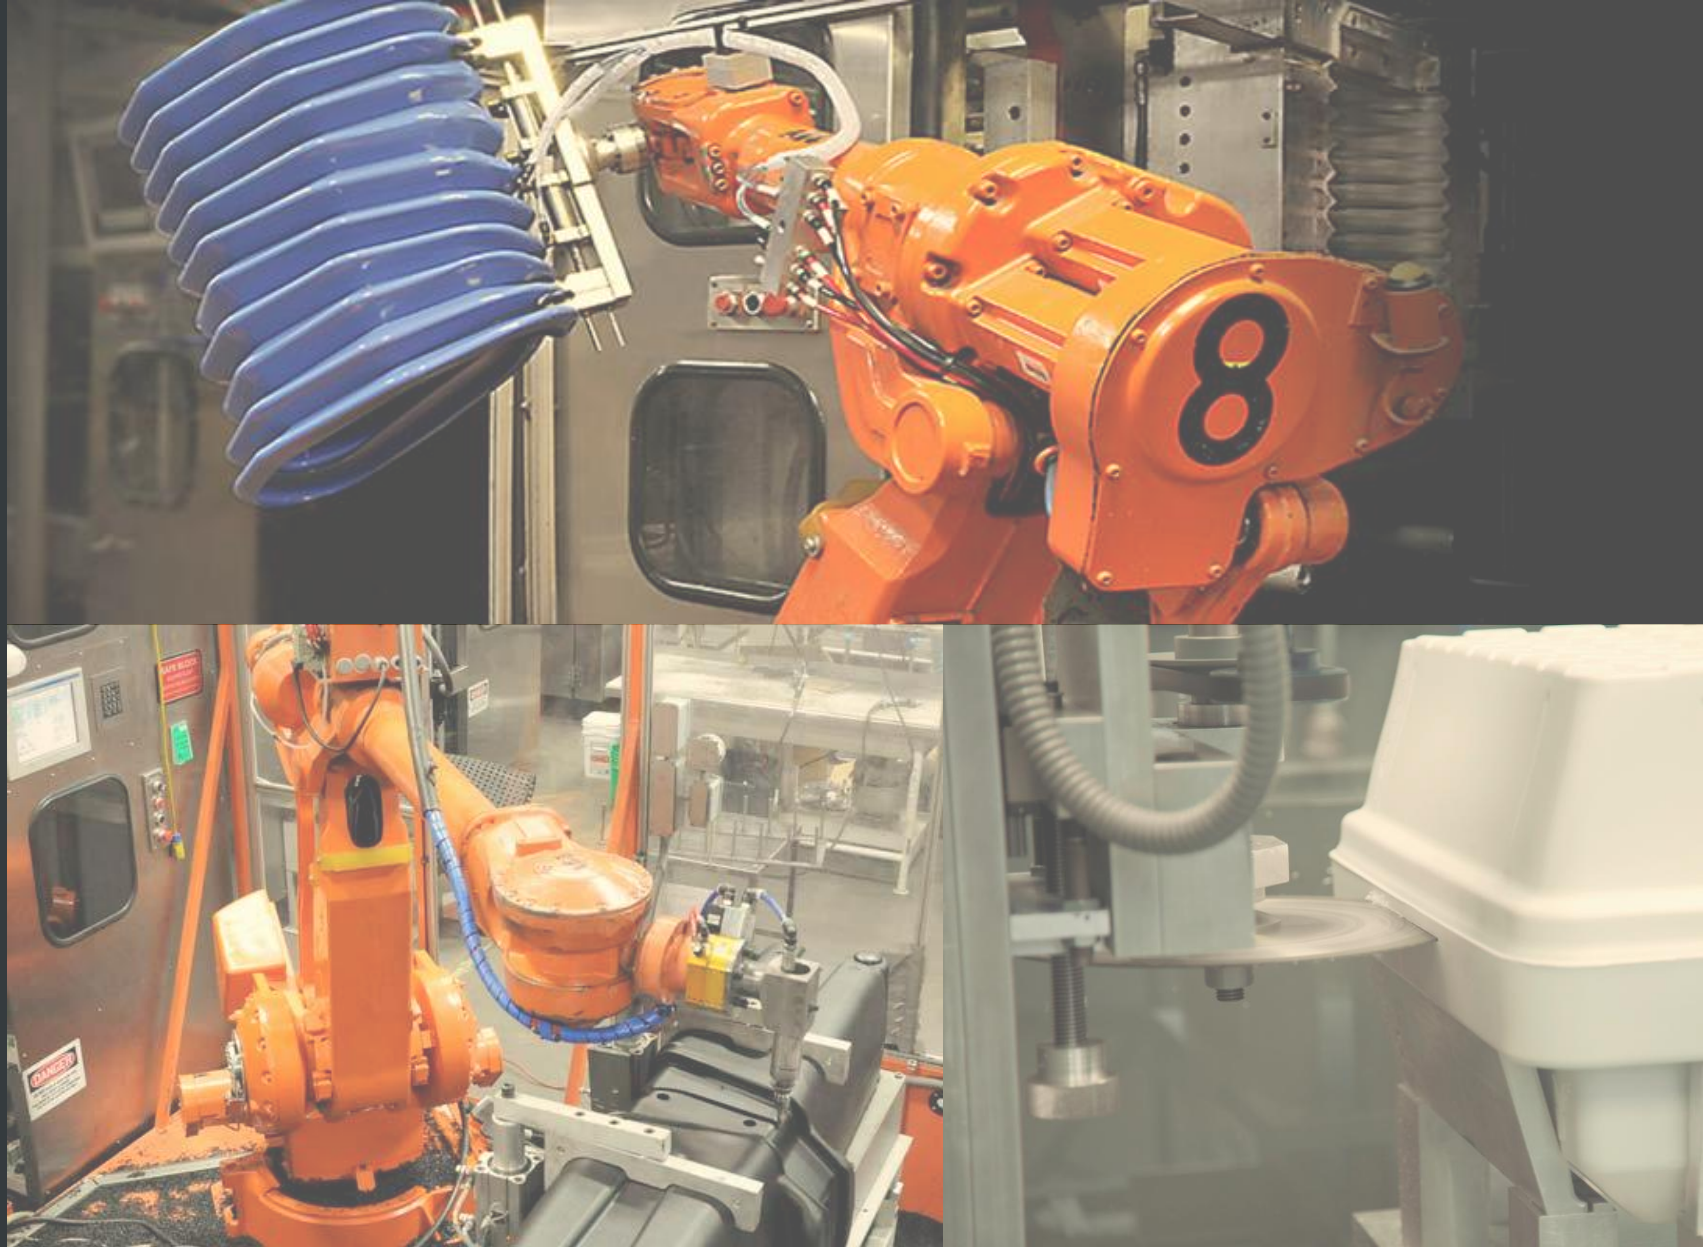

**Custom-Pak®**

**Much of our blow molding automation equipment is provided at no additional cost**

Integrated robotic and automated work-cell systems work in harmony with our blow molding machine controls and secondary operations equipment.

This provides fast, accurate and repeatable equipment for a variety of operations.

**Custom-Pak®**

**Benchmarking tells us  
that Custom-Pak  
delivers the highest  
quality blow molded  
products**

Quality Management Systems in all five US manufacturing facilities are ISO 9001:2015 certified, and our Mexicali, México division is ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018 certified.

**Custom-Pak®**

# One-stop total package of quality, price and service.

We provide on-site warehousing, distribution and fulfillment services, complete & accurate product assembly and pack-out.

The breadth of experience we bring to every project yields better style, easier operation, improved reliability, lower costs and greater customer satisfaction.
