

TRANS-NATIONAL
EXPRESS

[SHORT VIDEO](#)

[FULL VIDEO](#)

Trans-National Express is a family-owned company founded in 2003 in El Paso, Texas, born from the legacy of a family with a deep-rooted tradition in freight transportation dating back to the 1950s. With decades of accumulated experience, Trans-National Express emerged in response to a clear market need, to have a carrier that combines true operational control, personalized service, and door-to-door solutions between México, the United States, and Canadá.

From the very beginning, our commitment has been to provide reliable, secure, and results-oriented transportation services, built on a model that prioritizes direct attention and logistical efficiency without intermediaries.

Today, we operate across North America through our sister companies **Premier 1 Trucking**, **Transportes Enlace Internacional**, and **Key Point Carriers**, all under the same leadership and shared vision.

We are a company in constant growth, guided by strong values and a clear mission: **to do things right and to be the strategic partner our clients can truly rely on.**
